

PRESERVED COACHING STOCK OF BRITISH RAILWAYS

AMENDMENT SHEET NUMBER 93

October 2007

MYSTERIOUS CARRIAGES!!!

BR Mark 1 CKs 16158 (7158) and 16172 (7172). Having believed this mystery had been resolved, see Amendment Sheet 92, it has subsequently been discovered that I had been misled regarding the departure of the remaining one of the pair from Wentloog Corporate Park earlier this year for scrap. It has now been established beyond doubt that 16158 is still in existence at Wentloog Corporate Park, although its location on the site has changed, and 16172 was despatched to Simms Metals of Newport in October 2005.

BR FISH VAN 87702 (body). At the time of publication of 'Preserved Coaching Stock of British Railways Part One' this body was still believed to be at North British Maritime Shipping, Norbrit Wharf, Briton Ferry where it had been observed on several occasions in the early 1990's. In Amendment Sheet 39 it was recorded as moving to Fair Oaks (Tyn-y-pwll), Gwern-y-Steeple, Peterston-Super-Ely, Vale of Glamorgan and I have an observation entered for it here by a correspondent on 16th February 2000. I have now visited the location myself and been unable to locate this particular body and apparently others have had the same experience. Despite checking my correspondence files, I have not been able to establish the source of the 2000 sighting at Fair Oaks in order to get a description of the actual position of this body; also no OS grid reference was recorded. Thus, if that 2000 observation was made by a reader of these sheets, could they make contact in order that deliberations on the matter can take place. If that was not you, but you have observed this body at Fair Oaks or have any information about it then please let me know. Obviously, the indications are now that this body is no longer at Fair Oaks and thus probably scrapped but it could also still be present, but awkwardly positioned for observation.
